

Ormagel XPU helps protect the scalp against irritation caused by chemicals, alkali, or oxidants used to dye and/or straighten the hair. It is a multi-functional ingredient that forms a substantive film over the hair surface. It locks in moisture, adds gloss and smoothness, and delays the spread of sebum. It protects the scalp against irritation caused by aggressive hair treatments and removes the buildup caused by the accumulation of quats in hair, which can leave the hair limp and without body. COSMOS approved. Natural origin 99.29%. Use level: 1.0 - 4.0%. INCI name: Hypnea musciformis extract (and) Gelidiella acerosa extract (and) Sargassum filipendula extract (and) sorbitol.
