

SKIN CARE

MOISTURIZATION, REGENERATION AND PROTECTION

ASSESSA

INNOVATION FOR A GREENER WORLD

CARBOGREEN EA

CO-EMULSIFIER WITH GREAT SPREADABILITY AND TEXTURIZER

Carbogreen EA adds texture with low tack without a greasy touch. Carbogreen EA imparts a rich and nourishing feel. Carbogreen EA has optimum spreadability, and it is ideal for products with medium viscosity. No need of neutralizers. Biodegradable. 100% botanical sources.

CARBOGREEN EI

CO-EMULSIFIER AND TEXTURIZER WITH QUICK ABSORPTION

Carbogreen EI adds texture with low tack, is smooth to the touch and is rapidly absorbed onto the skin. Carbogreen EI is ideal for low viscosity products such as light emulsions. No need of neutralizers. Biodegradable. 100% botanical sources.

CARBOGREEN EO

CO-EMULSIFIER AND TEXTURIZER, SUSPENDING AGENT

Ideal for products with medium to high viscosity, it can be used in emulsions, primers, BB creams, CC creams and exfoliating creams. Forms stable suspensions in formulas with solid ingredients such as pigments, mica titanium dioxide and exfoliating agents and adds a dry and velvety touch to the skin. No need of neutralizers. Biodegradable. 100% botanical sources.

CARBOGREEN QB

CO-EMULSIFIER WITH DRY TOUCH AND TEXTURIZER

Carbogreen QB adds texture and moisturizes the skin with optimum spreadability. It gives a pleasant, dry and velvety touch to the skin. It's ideal for medium viscosity products. No need of neutralizers. Biodegradable. 100% botanical sources.

HYP SKIN

POWERFUL SKIN REGENERATING AGENT

Clinically and genetically proven, HYP SKIN activates 507 skin integrity genes: Increases cellular renovation, reduces and lightens dark spots, improves skin tone homogeneity, stimulates microcirculation, reduces wrinkles, and improves skin structure, texture, density, and firmness.

NUTLIX COCO

IMPROVES HYDRATION AND FIRMNESS OF THE SKIN.

A balanced combination between coconut water and extra virgin organic coconut oil that moisturize powerfully the skin. Assessa uses eco-friendly coconut water which production chain is 100% controlled. For its antioxidant properties the coconut oil is used in many anti-aging skin care products.

ACQUASALINA

REPLENISH MINERALS IN SKIN

Inspired by the composition of the mother liquor discarded in the production of salt, this hypertonic saline solution is highly concentrated in minerals and microelements that restores the electrolyte balance of the skin, activating its metabolism.

ACTIMULSI GA20

TEXTURIZER WITH ANTI-INFLAMMATORY ACTIVITY, CO-EMULSIFIER

A bioactive extracted from the exudate of Acacia Senegal, with soothing activity, is recommended for sensitive skins formulations. It also stabilizes emulsions, and is a co-emulsifier in creams and lotions, reducing the need of synthetic emulsifiers. Adds a dry and velvety touch to the skin, similar to silicone.

DERMAFENSE TGU

BROAD SPECTRUM ANTIOXIDANT

Dermafense TGU is made from specific molecules extracted from grape, guava, and wheat sprouts, and is a potent antioxidant with bio-stimulant activity. It prevents the skin against oxidative stress through a broad spectrum protection, inhibiting/capturing free radicals and preserving / stimulating the activity of antioxidant enzymes inside the cell.

SKIN CARE

MOISTURIZATION, REGENERATION AND PROTECTION

ASSESSA INGREDIENTS

ASSESSA's marine ingredients interact with the proteins of the epidermis forming a protective and moisturizing layer, activating biological responses of great importance in skin care products. The bioactives synergistically combine the biological properties of seaweed with other ingredients, resulting in a deep and distinct cosmetic effect on aging, damaged and tired skin. Liquid fruits are ingredients that contain the main elements found in the pulp, in concentrations close to the fresh fruit, without the addition of solvents, and with excellent bioavailability with the skin.

FLORLIK ROSE

ANTI-INFLAMMATORY,
ANTIOXIDANT

Florlik Rose produced from fresh rose petals, through a biotech process that transform the petals into a liquid containing all the bioactive components of the flower. Florlik Rose is a good antioxidant, has excellent antiinflammatory activity and also has astringent properties. The process does not use synthetic solvents.

ORMAGEL SH

MOISTURIZER,
PROTECTS THE SKIN

Ormangel SH protects, firms and moisturizes the skin. This unique ingredient reduces skin irritation, protects sensitized skin exposed to aggressive chemicals. Ormangel SH reduces the mush in soap bar formulas, increases the creaminess and the volume of the foam.

QUIDGEL BRM

ANTI-AGING, FIRMING,
REDUCES WRINKLES,
SKIN REGENERATOR

Quidgel BRM stimulates the innate immune system to recover the function and integrity of the skin. Quidgel BRM stimulates the skin regeneration, restores the extracellular matrix of the dermis and recovers the firmness and healthy appearance of mature skin.

SPROUTEX

ANTIOXIDANT,
PREVENTS COLLAGEN
DEGRADATION

Sproutex is obtained from the tender sprouts of Wheatgrass. It is rich in low molecular weight polyphenols, vitamins C, A, E and B, and has excellent antioxidant and protective activity. Sproutex inhibits the activity of metalloproteinases that degrade collagen and elastin, enhancing firmness on aged skin. Sproutex is gluten-free.

PLUGINS

NATURAL SUBSTITUTE
FOR SILICONE D5

Natural substitute for silicone, equivalent to D5. The ingredient is a combination of special fractions of sunflower, chia, and jojoba oil with a biomimetic composition similar to human skin sebum.

QUIDITATNWA PLUS

MOISTURIZER,
SOOTHING ACTIVITY

A bioactive network of seaweed and Aloe for skin treatment. The sulfate groups of the biopolymers add substantivity of the bioactives from Aloe to the skin increasing the performance of the product. It is a powerful moisturizer with soothing action.

QUIDITAT NWP

ANTI-INFLAMMATORY,
SOOTHES SKIN,
REDUCES DARK SPOTS

Combination of biomolecules extracted from fresh cucumber with marine polysaccharides with a potent anti-inflammatory activity. Quiditat NWP soothes irritated skin affected by sun, mechanical stress or exposure to chemicals. It also reduces dark spots caused by inflammation (Post-Inflammatory Hyperpigmentation), lightens and evens the skin tone.

QUIDITAT SRC

POWERFUL ISOTONIC,
MOISTURIZER

Quiditat SRC is made of pure coconut water vectorized with marine biopolymers. It has an extraordinary capacity to stimulate the metabolism of fibroblasts to produce Collagen and to recover skin suppleness. Coconut water is a natural isotonic that restores the mineral balance of skin. Quiditat SRC is also a powerful moisturizer.

ASSESSA
INNOVATION FOR A GREENER WORLD

HAIR CARE

MOISTURIZATION, CONDITIONING AND PROTECTION

ASSESSA

INNOVATION FOR A GREENER WORLD

ACQUASALINA

REPLENISH MINERALS IN DAMAGED HAIR

Acquasalina is inspired by the composition of the mother liquor discarded during the production of salt. This hypertonic saline solution is highly concentrated in essential minerals and microelements that restores the electrolyte balance of the scalp, activating its metabolism.

CARBOGREEN Q.B

TEXTURIZER, THICKENER AND CO-EMULSIFIER

Carbogreen QB is compatible with quaternary ammonium salts, 100% natural and biodegradable. It can be used in conditioners, hair masks, leave-on formulas and other hair care products that use quats. Carbogreen QB adds texture to the formulas, eliminating the need of fatty alcohols and the waxy touch to the hair.

CURVELINI

STYLING, DEFINITION AND MAINTENANCE OF CURLS

Extracted from golden flax seeds, Curvelini is rich in proteins, precious oils and polysaccharides. Improves definition and maintains curls for 24 hours, increasing hair gloss after just one application. In specialist's panels formulas with Curvelini show better performance in softness, definition, and formation of curls.

COLOR HOLD

PREVENTS FADING IN DYED HAIR

Colorhold is based in a unique double sealing system that works on two levels of the hair fiber, blocking the voids, or "escape routes" of the hair matrix and preventing the loss of pigments. Colorhold can be used directly in the dyes' formulas or in products for treating dyed hair such as shampoos and conditioners. Colorhold outperforms its competitors in comparative tests after nine washes.

FIBER DTOX

ANTI-POLLUTION, DETOXIFIES HAIR

Fiber Dtox combines natural molecules obtained from four plants with an excellent biosorption capacity. Fiber Dtox adsorbs and removes toxic metallic ions originated by air and water pollution from the hair fiber. Fiber Dtox prevents accumulation of heavy metals in the hair fiber and protects it from damage caused by hydrogen peroxide and other oxidants.

FIBER PLUGIN BMS

RESTORES HAIR NATURAL LIPIDS

A biomimetic association of lipids that simulates the composition of the oil produced by the sebaceous glands. It is the result of a careful balance of 100% natural extracts, monoesters, triglycerides and squalane that restores the lipid balance for dry, brittle and damaged hair. Designed to be used with other ASSESSA actives as a booster to improve their activity.

FLORLIK ROSE

GLOSS AND ANTIOXIDANT

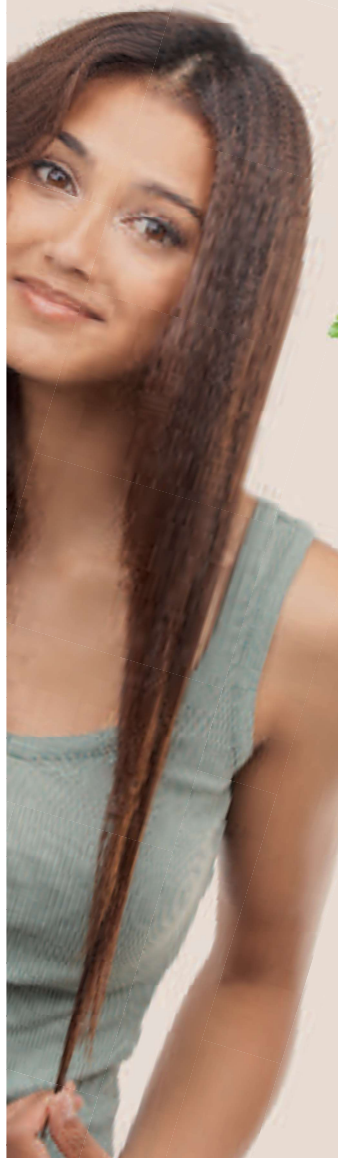

Produced from fresh rose petals, in a process which transforms them into a liquid containing all the bioactive components of the flower, Florlik Rose has a good anti-oxidant activity and is rich in flower acids and mucilages that help to reduce the porosity of damaged hair. Florlik Rose also moisturizes and adds gloss to the hair.

FILCORTX VEG

RESTRUCTURES THE DAMAGED FIBERS

Restores the balance of amino acids and peptides in damaged hair. This unique proteomic-based ingredient focuses in the Keratin-Associated Proteins (KAP), since KAPs are the most sensitive group of proteins of the fibers and are the first to be damaged. Filcortex VEG helps to rebuild the cortex, repairs brittle and damaged hair, recovers density, increasing its strength by 40% after 3 treatment cycles. Also protects hair against heat stress.

HAIR CARE

MOISTURIZATION, CONDITIONING AND PROTECTION

LISSELINI

STYLING, ANTI-FRIZZ, HAIR ALIGNMENT AND THERMAL PROTECTION

Lisselini is a combination of soluble fibers with bioadhesive properties, arginine-rich proteins, and biopolymers fractions rich in polyhydroxylated acids. Lisselini has excellent antifrizz properties and adds immediate gloss to hair. Lisselini involves the hair strands allowing for a better alignment of the fibers, that gives smoothness to the hair.

NUTLIX COCO

MOISTURIZES AND PROTECTS THE HAIR FIBER

NUTLIX COCO is a balanced combination between a fraction of coconut water and extra virgin organic coconut oil, creating a unique product that moisturizes powerfully the hair fiber. Tests show that Nutlix Coco retains 20% more water in hair, when compared to virgin coconut oil.

ORMADRY CLC

PROTECTS THE SCALP AND HAIR

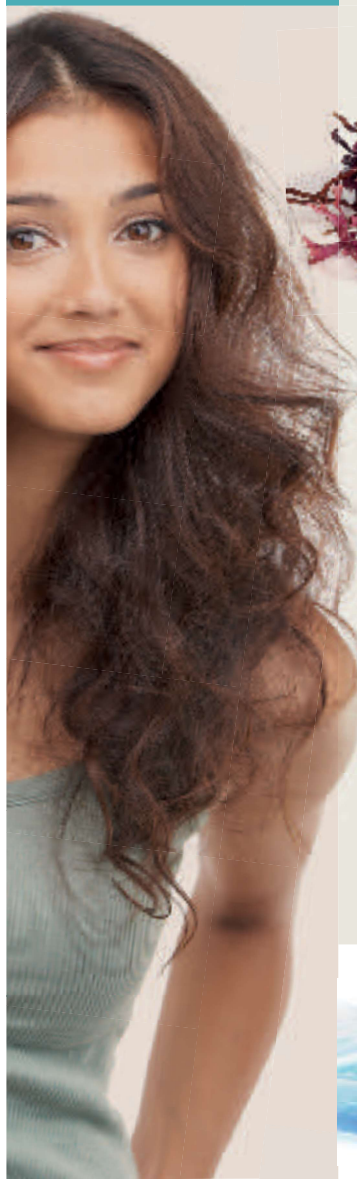

Ormadry CLC is based on a combination of marine biopolymers, and was designed for dry (powder) or paste products. It forms a moisturizing film that protects the scalp and the hair against aggressions caused by chemicals, reducing skin irritation and damage to the hair. Ormadry CLC is a powerful moisturizer and protective agent.

ORMAGEL SH

PROTECTS THE SCALP, MOISTURIZES THE HAIR

ORMAGEL SH is based on a combination of marine biopolymers extracted from red and brown seaweeds. ORMAGEL SH reduces scalp irritations caused by aggressive chemicals such as straighteners. Ormagel SH also protects and moisturizes the hair.

ORMAGEL XPU

MOISTURIZES, PROTECTS, SEBUM REGULATOR, GLOSS, ANTI-RESIDUE

Protects the scalp against irritation caused by chemicals such as straighteners, alkalis and oxidants. It has antiresidue action, removing the build-up caused by accumulation of quats in hair. Forms a substantive film over the hair surface that delays the spread of sebum, aligns the cuticles, locking the moisture, adding gloss and smoothness.

QUATTRO

SPECIALLY DESIGNED FOR CURLY & COILY HAIR

Quattro is an active ingredient obtained from the combination of chia seeds, liquid waxes, monoesters of medium-chain fatty acids and other essential lipids. Designed for curly and coily hair (types 3 and 4), it regenerates the structure, protects the fibers from dryness and preserves the hair natural oiliness. Improves combability, preserves the curls and aligns the strands of the hair.

QUIDITAT NWA PLUS

MOISTURIZER, PROTECTS AND SOOTHES THE SCALP

A bioactive network of biopolymers from marine origin and Aloe for hair treatment. The sulfate groups of the biopolymers act as biological anchors, increasing the substantivity of the bioactives from Aloe to the hair and skin (scalp) increasing the performance of the product. Powerful moisturizer with good antiinflammatory activity with soothing action.

QUIDITAT SRC

RESTORES THE MINERAL BALANCE OF THE HAIR

Quiditat SRC is made of pure coconut water vectorized with marine biopolymers. Coconut water is a natural isotonic, and is specially rich in soluble silicone, that treats damaged and weakened hair. Quiditat SRC restores the mineral balance of the hair. It is also a powerful moisturizer rich in soluble silicone that treats damaged and weakened hair.

ASSESSA
INNOVATION FOR A GREENER WORLD

LIQUID FRUITS

LIQUID BIOACTIVES EXCLUSIVE TECHNOLOGY

ASSESSA
INNOVATION FOR A GREENER WORLD

AÇAÍ

[Euterpe Oleracea
Fruit Extract]

Rich in Omega 3, 6 and Omega 9, amino acids and protein. Vitamins A, B1, B2, B3, C and E, in addition of potassium, calcium, magnesium, copper and zinc.

ACEROLA

[Malpighia Glabra
Fruit Extract]

Is a significant source of vitamin C and Vitamin A, B-vitamins, calcium, iron, potassium and magnesium. Also contains protein, fiber and fatty acids.

APPLE (MAÇÃ)

[Malus Domestica
Fruit Extract]

Rich in vitamins C, A, and E, apples are also a good source of pectin and boron. Quercetin is a nutrient found in apples and is known as a flavonoid.

BANANA

[Musa Sapientum
Fruit Extract]

Banana is a source of fiber, potassium, vitamin B6, C. Is also a source of pectin. Types of sugar found in ripe bananas are sucrose, fructose and glucose.

HAIR AND SKIN CARE FRUIT ACTIVES

LIQUID FRUITS is a line especially developed for cosmetic use, through an exclusive biotechnological process that mimetizes the natural ripening process of fruits, modifying the structure of the pulp, transforming it into a crystalline liquid, with all the active ingredients of the fruit, in concentrations equivalent to those found in nature.

CAJA

[Spondias Mombin
Fruit Extract]

Contains high levels of calcium, magnesium, potassium, iron and phosphorus. Most striking is the content of carotenoids.

COCOA (CACAU)

[Theobroma Cacao
Fruit Extract]

Contains the highest concentration of antioxidants of any food in the world, including polyphenols, catechins, and epicatechins.

CUPUAÇU

[Theobroma Grandiflorum
Fruit Extract]

Exotic fruit rich in moisturizing polysaccharides, antioxidant anthocyanadins, essential sugars and mineral salts.

GRAPE

[Vitis Vinifera
Fruit Extract]

Grapes are rich in hydroxyacids, vitamins, essential sugars, antioxidant bioflavonoids and mineral salts.

SOURSOP (GRAVIOLA)

[Annona Muricata
Fruit Extract]

Soursop possesses nutritional and remineralizing properties and is recommended in formulas for weakened hair.

GUAVA (GOIABA)

[Psidium Guajava
Fruit Extract]

Possesses an excellent source of vitamin C, vitamin A and flavonoids like beta-carotene, lycopene and lutein.

JABUTICABA

[Plinia Cauliflora
Fruit Extract]

Jabuticaba is a source of minerals such as calcium, iron and phosphorus, possessing high levels of vitamin C.

KIWI

[Actinidia Deliciosa
Fruit Extract]

Rich in flavonoids, fruit acids and other phytonutrients, such as caffeic acid, quercetin, coumaric acid.

LIQUID FRUITS

LIQUID BIOACTIVES EXCLUSIVE TECHNOLOGY

LEMON (LIMÃO)

[Citrus Limon Fruit Extract]

Lemon is rich in calcium, iron, silicon, phosphorous, copper, magnesium. Also in citric and malic acids and acetic and formic acids.

MANGO (MANGA)

[Mangifera Indica Fruit Extract]

Mangoes are rich in vitamin A, complex B vitamins, vitamin C, essential sugars, antioxidants, as well as some mineral salts.

MELON (MELÃO)

[Cucumis Melo Fruit Extract]

Rich in mucilage, sugars, bioflavonoids, mineral salts such as potassium, magnesium, calcium and manganese.

MULBERRY (AMORA)

[Morus Nigra Fruit Extract]

Mulberry is rich in moisturizing mucilage, vitamins, organic acids, essential sugars, anthocyanidin, flavonoids and mineral salts.

ORANGE (LARANJA)

[Citrus Aurantium Dulcis Juice]

Source of vitamin C contains mineral salts, mainly calcium, potassium, sodium and phosphorous.

PAPAYA (MAMÃO)

[Carica Papaya Fruit Extract]

Possesses large quantities of mineral salts (calcium, phosphorous, iron, sodium and potassium) and vitamins A and C.

PASSION FRUIT (MARACUJÁ)

[Passiflora Edulis Fruit Extract]

Rich in antioxidant bioflavonoids and minerals such as potassium, calcium, and reasonable levels of vitamins C and A.

PEACH (PÊSSEGO)

[Prunus Persica Fruit Extract]

With appreciable levels of vitamin A, C and D, organic sugars, acids and mineral salts such as magnesium and manganese.

PEAR (PERA)

[Pyrus Communis Fruit Extract]

Contains vitamins B1, B2 and B3 and minerals including potassium, calcium, phosphorus, silicon and magnesium.

PINEAPPLE (ABACAXI)

[Ananas Sativus Fruit Extract]

Rich in bromeline (a proteolytic enzyme) presents appreciable levels of vitamin C, as folic acid, vitamin B6 and mineral salts.

PITANGA

[Eugenia Uniflora Fruit Extract]

Contains proteins, complex B vitamins, bioflavonoids and minerals such as potassium, calcium, zinc and silicon.

RASPBERRY (FRAMBOESA)

[Rubus Idaeus Fruit Extract]

Raspberries are rich in moisturizing mucilage, essential sugars, organic acids, flavonoids, anthocyanidins and mineral salts.

STRAWBERRY (MORANGO)

[Fragaria Vesca Fruit Extract]

Rich in organic acids, flavonoids and mineral salts such as potassium and magnesium

WATERMELON (MELANCIA)

[Citrullus Lanatus Fruit Extract]

Rich in sugars, complex B vitamins, mineral salts, licopenes and glutathione.

SKIN CARE BENEFITS

Firmness, moisturizing, nutrition, protection, revitalization, smoothness.

PRODUCTS

Emulsions, masks, serums, mature skin products, liquid and bar soaps.

HAIR CARE BENEFITS

Frizz control, conditioning, moisturizing, nutrition, protection, shine, smoothness, remineralization.

PRODUCTS

Shampoos, conditioners, hair masks, leave on products, serums, products for scalp.
