

# DUROSOFT

PG10-CY

THE PERFECT STARTING POINT FOR CREATING A NATURAL RANGE OF PERSONAL CARE PRODUCTS. DEVELOP INNOVATIVE FORMULATIONS USING THE DUROSOFT® RANGE TO CREATE TAILORED SOLUTIONS SPECIFIC TO YOUR CUSTOMER NEEDS.

*Durosoft PG10-CY is made from 100% vegetable derived ingredients. Polyglyceryl-10 Caprylate is known to be an effective non-ionic solubiliser of fragrances, essential oils and lipophilic oils into aqueous systems due to the large polyglyceryl head group. It is a natural alternative to commonly used petrochemical derived solubilisers such as PEG-40 Hydrogenated Castor Oil and Polysorbate-20.*

## CHARACTERISTICS

---

- > Solubiliser
- > Ethoxylate free
- > PEG free
- > Preservative free
- > Naturally derived
- > Skin friendly
- > GMO free

---

MADE IN ENGLAND

---

*INCI Name: Polyglyceryl-10*

*HLB value: 13 - 14*

*Usage: 1.0% - 20.0%*

*Durosoft PG10-CY is naturally derived grade of polyglyceryl-10 Caprylate*

*Storage: In a cool, dry, place away from moisture, warm gently to 60°C before use*

## APPLICATIONS

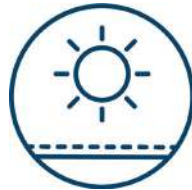

---

*Skincare*

*Haircare*

*Suncare*

*Colour cosmetics*

*Deoderants*

*Fragrance*
